“ *Our paths crossed often in high school as a classmate, during cheerleading, gymnastics, graduation 1975 and off to Berkeley. Dee Dee loved to laugh, have a good time, she was creative and her demeanor was always pleasant, caring and full of life. Since then, life's issues moved us along, every time we had the good fortune of running into each other it was like we had never missed a beat. Condolences and prayers of comfort, healing and strength to the families, she will be missed and forever remembered.*
