“ *Gil Caldwell was my pastor in the late 1970s at First United Methodist Church in New Haven, Connecticut. I remember him as a kind, compassionate man with a passion for the gospel and for social justice. At the time I was a young man, and a bit conservative in my religious outlook. Gil's sermons and the example of his life challenged my thinking at the time, and broadened my outlook.*

My wife and I are active members of the Church of the Brethren. Among the things that attracted us to the Brethren are the denomination's concern for social and environmental justice. I believe that some of the seeds for that attitude on my part were planted by the ministry of Gil Caldwell. I thank him for his witness.

My condolences to Gil's family and friends. I hope that the expressions of gratitude for his life that you receive will provide some solace for your loss.

“ I thank God for the life, friendship and ministry of Gil Caldwell. Gil was my District Superintendent when I served a church in Newton Upper Falls while in seminary, he arranged for many of us to travel to Selma for the voting rights march, he came to Indiana at our invitation to speak at an Academy for Spiritual Formation and invited me to speak at his congregation in Denver. Gil and Grace have been friends for over 55 years. I thank God for his pastoral and prophetic ministry among us. I know he hears the words of our Lord “Well done, good and faithful servant, enter into the joy of your master.” May God bless his family as they love him and give him back to God.
