Lydia Elaine Walker was the third of six children born to Herbert Walker and Eva Louise Patterson in Jamaica West Indies and was born July 20, 1936. Lydia attended Zorn Moravian School in Christiana , Manchester where she obtained her early education and thereafter advanced in vocational education.

“ Dang it, its been 9yrs and it seems like yesterday. I can still hear your voice, feel your touch, and even taste your food. I love you so much. For the longest of time i asked God,why.. why you? I even grew a bitter hate, that blocked me from forgiving others and loving myself properly. I at this big age acknowledge that i will never actually see you again and still cope with that. My forever angel, i know that if i don't have nobody else proud of me i know i can always count on you, Love you endlessly -Tashawna Walker
